MODEL 1350
R-Value
14.46**

*Based upon independent laboratory test results.

**Calculated door section R-value is in accordance with DASMA TDS-163.

The Model 2720, 2700, and the 1350 are Amarr's top-of-the-line high R-Value Doors. Constructed using 2" or 1-3/8" foamed-in-place polyurethane insulation which creates a strong monolithic panel that is energy efficient. The Model 2720 has a 20-gauge steel front skin that provides a perfect option for heavy industrial applications.

Each model is secured with standard 14-gauge, galvanized steel hinges. The interior skin of each section has two continuous horizontal 20-gauge reinforcing strips. The section joint is thermally broken and chemically bonded with a pressure-sensitive adhesive sealant. An EPDM rubber weather seal further enhances the performance of the joint.

TRIPLE-LAYER Steel + Insulation + Steel

Track: All Amarr doors are available with both 2" or 3" track in Standard Lift, High Lift, Vertical Lift, Low Headroom, and Follow the Roof Pitch. Custom track configurations are also available. For drawings and more information, please visit www.amarr.com.

Hardware: Amarr hardware includes minimum 14-gauge galvanized steel hinges and 13-gauge galvanized steel track brackets. All rollers have minimum 10-ball bearings.

Springs: Torsion springs are oil tempered, helical wound and custom computed for each door for a minimum 10,000 cycle life. Optional springs are available up to 100,000 cycle life.

WARRANTIES

- 10-year Limited Warranty on the paint and finish
- 1-year Limited Warranty on hardware
- See your dealer or visit amarr.com for complete warranty details
